Professional Summary

Senior Backend Engineer with 6+ years of experience building high-volume APIs, payment workflows, and distributed services using Python, FastAPI, PostgreSQL, Redis, Kafka, Docker, and AWS.

Experienced in microservices, RESTful APIs, event-driven systems, observability, and production incident response. Strong track record of improving reliability and latency through measurable engineering changes.

Technical Skills

Languages: Python, SQL, Bash/Shell

Frameworks: FastAPI, Django, Flask

Databases: PostgreSQL, Redis, MySQL

Architecture: RESTful APIs, Microservices, Distributed Systems, Event-Driven Architecture, Apache Kafka

Cloud & Infra: AWS, Docker, Kubernetes, Terraform, Linux/Unix, Nginx

Testing & Tools: Pytest, Git, GitHub Actions, Prometheus, Grafana

Experience

Senior Backend Engineer | FinFlow Systems | Bengaluru | 2023-Present

Built FastAPI payment services handling 8M+ monthly requests; reduced p95 latency by 34% through query optimization, Redis caching, and async I/O.

Designed Kafka-based event workflows for payment status updates and audit trails across 9 microservices.

Introduced PostgreSQL indexing and connection-pool tuning that reduced peak database CPU by 27%.

Productionized Docker/Kubernetes deployments and added Prometheus/Grafana service monitoring.

Backend Engineer | CloudCart | Bengaluru | 2020-2023

Implemented REST APIs in Python and Django for checkout, orders, and customer profiles used by 2M+ monthly users.

Built background workers and Redis queues for email, invoice, and order-processing workflows.

Automated CI/CD with GitHub Actions and Docker, reducing release time from 45 minutes to under 15 minutes.

Projects

Payment Reliability Platform - FastAPI, PostgreSQL, Kafka, Redis, Docker, AWS. Added idempotent payment APIs, retry handling, audit logs, and service health checks.

Inventory Event Pipeline - Kafka, Python, PostgreSQL. Processed asynchronous inventory events with dead-letter handling and replay support.

Education

B.Tech., Computer Science and Engineering | Demo Institute of Technology | 2018
